## PREREQUISITES:

First-year students only.

## DESCRIPTION:

Many serious environmental threats are global in scope. Just think of the way we produce and consume energy; how waste produced in one corner of the world travels by air, sea and land to pollute another corner; and how ecosystems that transcend national boundaries are impacted by human behavior. Who is responsible for governing these global environmental challenges? This seminar explores linkages among nations, global environmental institutions and the environmental problems they cause and seek to rectify. We will examine how global environmental policy is made, with specific attention to the roles of institutions and nations. Topics include the evolution of environmental policy in the United States; China impact on the global environment; global environmental institutions such as the United Nations Framework Convention on Climate Change; risks to the environment through pollution of land and sea by

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

Is inequality a policy choice? Students in this course will examine and participate in debates around whether and which policies have the capacity to create, sustain, exacerbate, and/or ameliorate inequalities in the United States.

## ABOUT THE INSTRUCTOR:

Dr. Cassandra Davis is a Research Assistant Professor of Public Policy at the University of North Carolina at Chapel Hill. Within the last four years, Dr. Davis has held the role of principal investigator on five research evaluations, with the most recent of these projects focused on the impacts of hurricanes

PREREQUISITES:							
First-year students only.							
DESCRIPTION:							
This seminar provides an introduction to entrepreneurship and innovation with a focus on their geographic concentration in specific places. Using the Research Triangle region as our laboratory, this course will consider how regional economies are transformed through innovation and entrepreneurship. The course emphasizes entrepreneurs as part of a larger societal system that both determines what is possible and also changes in response to entrepreneurial actions. The role of public policy in providing incentives for entrepreneurship and innovation and setting social priorities is discussed. Wednesday sessions will be devoted to using data analytics to examine trends in innovation, entrepreneurship and places.

This course provides a general overview of the role of history in public policy, the policymaking process, and the substance of major domestic and global public policy challenges. It exposes students to the conceptual and analytical perspectives necessary for understanding and playing a direct role in policy making. This course will illuminate policy and political challenges in areas such as tax policy, social policy, education policy, health policy, foreign policy, and homeland security. We will explore the inherent tensions that emerge between good {politics} and good {policy} in a number of these substantive policy areas. Honors students will pay particular attention to the role of politicians (elected officials) and experts (policy researchers) in the making of public policy. Students will work to develop their skills in effective oral and written communication, including making oral arguments, presenting research findings, and writing for policy audiences.

Global issues are challenging to address because their sources, impacts, and solutions extend beyond the borders of any one country and often require multilateral and collaborative responses. This course will introduce students to a number of current pressing global issues, including migration and refugees, humanitarian intervention, globalization, poverty and climate change. Students will learn about these issues through lectures, assigned readings, individual research, class discussions, and in-class exercises. Emphasis will be placed on developing students' ability to understand and critically evaluate the causes and consequences of global policy problems, and to assess potential policy responses and the prospects for their success.

This course requires instructor permission.

To paraphrase the American political philosopher John Rawls, justice is the first virtue of public policy. No matter how efficient or well arranged, laws and institutions must be abolished if they are unjust. Accordingly, some of the most basic questions of public policy are questions of justice: what goals should the government aim to realize? What means may it adopt to realize those goals? In this course, we examine the most prominent theoretical approaches to these questions: utilitarianism, contractualism, and rights-based views. We shall aim to determine whether governments should maximize individual welfare, or whether the proper role of government is to respect and protect the rights of its citizens. We shall also employ these theoretical frameworks to think through pressing contemporary policy problems, which may include economic justice and the design of welfare policy, the ethics of climate change, justice in immigration, the moral limits of markets, the role of religion in politics, and the ethics of whistle-blowing.

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

From Facebook friends to BFFs, friendship is a crucial part of our lives; friendship has also been a crucial concern in the history of political thought. In this class, we will investigate what relationships have been designated ¿friendship¿ in the past, and investigate why are they of such concern to political and ethical philosophers. What is the work that ¿friendship¿ does in the political and ethical thought of ancient thinkers like Plato, Aristotle, Cicero? How ¿ and why ¿ do Montaigne and Emerson write about it? Where do we find the most provocative and insightful contemporary writing about friendship? Above all: what is friendship¿s relation to politics and to ethical life?

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

With a wave of democratization that began in 1978 and peaked in the mid-1990s, Latin America is experiencing the most prolonged and extensive period of democratic politics in its history. For most countries in the region, state power is accessed through reasonably competitive, fair, and clean elections, in contrast to past patterns of authoritarian rule, though with exceptions and setbacks. In spite of this democratic shift, in many countries in the region the exercise of state power reflects historical continuities or new examples of corruption, clientelism and other abuses of state resources. This complicates the ability of governments to provide citizen security, economic development and social inclusion.

POLI 100H.001	Introduction to Government in the United States
---------------	---

TR, 3:30 pm - 4:45 pm. Instructor(s): Timothy Ryan. Enrollment = 24.

This course is an introduction to American political institutions, political behavior, and the policy process. In this course we will discuss the origins of the current governmental system in America, the structure of the U.S. government, and how theories of American government apply to current events and problems the government and citizens face today.

Timothy Ryan is an Associate Professor in the Department of Political Science at UNC, Chapel Hill. He has a number of research interests related to public opinion and political psychology.

POLI 130H.001 | Introduction to Comparative Political Behavior

MW, 3:35 pm - 4:50 pm. Instructor(s): Ashley Anderson. Enrollment = 24.

Political behavior is the study of attitudes, ideology, and engagement with the government. This covers a wide range of issues and questions. For example, why are some individuals more likely than others to support specific policies? How do we understand the connection between individual voters and political parties? What makes an individual more or less likely to vote? When and where are broad social movements, wars, rebellions and revolutions most likely to occur? Comparative political behavior is the study of how all these phenomena operate across nations and regions with different institutional and cultural environments.

Ashley Anderson is a second year professor in the Political Science department at UNC. She specializes in Middle Eastern politics and social movements, and received her Ph.D. in Government at Harvard in 2016.

POLI 255H.001 | International Migration

R, 3:30 pm - 6:00 pm. Instructor(s): Niklaus Steiner. Enrollment = 21.

While the global movement of products, services, ideas, and information is increasingly free, the movement of people across borders remains tightly controlled. This control over international migration is a highly contested issue, and it is complicated by the fact that never before have so many people had the ability to move from one country to another while at the same time governments have never had so much power to control such movement. This class explores the moral, economic, political, and cultural dimensions of this movement across international frontiers. The class will be based on discussions (as opposed to lectures) and we will tackle a diversity of questions such as: Do we have an obligation to let poor people into our rich country? How do foreigners affect national identity? How should citizenship be allocated? Should NAFTA open its borders like the EU has? We will pay particular attention to the distinction between migrants who move voluntarily (immigrants) and those who are forced to flee (refugees) - is this an important distinction to make and does one group deserve admission more than the other?

## What is Classical Political Thought?

Political: For ancient and medieval writers, thinking about politics was intertwined with thinking about ethics, psychology, knowledge, and religion. So the

Students are advised that enrolling in POLI 271.001 requires a recitation as well. If you have problems or questions about the process please email the Undergraduate Coordinator, Genevieve Cecil, at [gcecil@email.unc.edu](mailto:gcecil@email.unc.edu).

## Course description:

The course introduces students to the theory and practice of studying European public opinion. The course is split into three parts. In the first part of the course, we will discuss core concepts and important problems in the study of public opinion. We will also encounter different research designs for analyzing public opinion. In the second part of the course, we will examine several recent research contributions on different aspects of public opinion in Europe. In the third part of the course, we will take a more applied approach. After familiarizing ourselves with the tools for the study of public

opinion and learning about different datasets, students will develop small research projects in groups to study a research question of their choice about public opinion in Europe. The course concludes with students giving a short present about their findings.

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

Illicit and legal drugs make the user feel good but also promote the development of dependence and long-lasting changes in brain physiology. In this biological psychology seminar, we will take a multi-disciplinary approach to learn about the neurobiology of drug addiction with a focus on the following questions: How do we define addiction? What are the beneficial and harmful psychological effects of abused drugs? What has scientific research revealed about the neurobiology of the {brain on drugs}? Do most users become addicts? How is drug addiction treated? We will tackle these and other questions through classroom discussions/debates, lectures, movies, reading and writing assignments, and an optional tour of a residential substance abuse recovery program. In this communication intensive seminar, critical analysis of information about the neurobiology of addiction will be used to separate fact from

NSCI 222H.001 | Learning

MWF, 10:10 am - 11:00 am. Instructor(s): Todd Thiele. Enrollment = 24.

This course is designed to introduce the student to the topic of animal learning and behavior. We will consider Pavlovian or ¿Classical¿ learning, operant learning, and the role of learning in drug abuse and dependence. Students will acquire knowledge of the procedures used to study learning, the ways that learned behaviors are expressed, and theories that have been proposed to explain how learning is represented in memory. Because neuroscience has had such a tremendous impact on our understanding of learning, memory, and behavior, we will also consider new findings from neuroscience that have allowed an

understanding of the underlying brain substrates.

PREREQUISITE: NSCI 175 or PSYC 101.

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

In this First Year Seminar we will consider family as a context for children's development. Contemporary families are highly diverse, and topics covered in class reflect this diversity. We will examine characteristics of traditional, divorced and step families, single parents, gay and lesbian parents, and immigrant families. In addition to taking two examinations, students will interview a family member and write a five-page paper based on that interview. Each student will also give a class presentation on a family-related topic.

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

This seminar is designed especially for students interested in exploring the psychological and neuroscientific study of emotion. The seminar assumes students will have diverse backgrounds and there are no pre-requisites. Topics will include theoretical models of emotion process and structure, as well as discussions of psychological research bearing on questions such as ¿Can you read emotions in the faces of other people?¿ (emotional expressions), ¿How is emotion expressed in the body?¿ (autonomic physiology), ¿Where do emotions live in the brain?¿ (affective neuroscience), ¿Is emotion a source of wisdom or the enemy of rationality?¿ (emotion and reasoning), ¿Does emotion help or hurt your relationships with other people?¿ (emotion and social behavior), ¿Can you control your emotions or do they control you?¿ (emotion regulation), ¿Do emotions drive you crazy?¿ (emotion and psychopathology) and ¿Are women really

PSYC 245H.001 | Abnormal Psychology

TR, 2:00 pm - 3:15 pm. Instructor(s): Donald Baucom. Enrollment = 24.

This course provides an introduction to the study of maladaptive or abnormal behavior of adults. The emphasis will be on the description of various symptom patterns of maladjustment, theory and research on the causes of such behavior, and the prevention and treatment of maladaptive behavior patterns. The course provides you with an opportunity to observe videotapes of individuals who experience these disorders, and the chance to develop your own conceptualization of how a given individual developed a specific disorder, along with creating a treatment plan for this person. My hope is that you will not only learn specific information about the various disorders, but in addition you will learn to think about adaptive and maladaptive behaviors in a thoughtful, realistic manner from a psychological perspective.

PSYC 533H.001 | The General Linear Model in Psychology

TR, 2:00 pm - 3:15 pm. Instructor(s): Katie Gates. Enrollment = 24.

Goals of the course: Evaluating hypotheses through the statistical analysis of empirical data is one of the cornerstones of modern science. In this course, we examine how the General Linear Model (GLM), including the multiple regression model, is used in psychological science. Goals of the course are for you to:

- Gain an understanding of how to specify GLMs that are both appropriate for your data and that provide direct tests of theoretically motivated hypotheses.

- Become competent in fitting GLMs within commonly used statistical software, such as SPSS.

- Become a thoughtful and critical consumer of psychological research using the GLM

DESCRIPTION:

Claudia Yaghoobi is a Roshan Institute Assistant Professor in Persian Studies in the Department of Asian Studies at the University of North Carolina, Chapel Hill. She teaches courses on Middle Eastern and Persian Literature. Yaghoobi's recent publications include 'Yusuf's Queer Beauty in Persian Cultural Productions', *Comparatist* (2016); 'Socially Peripheral, Symbolically Central: Sima in Behrouz Afkhami's Showkarang', *Journal of Asian Cinema* (2016); 'Subjectivity in ?a?ar's Shaykh San'ān Story in The Conference of the Birds', *CLCWeb: Comparative Literature and Culture* (2014); and 'Sexual Trauma and Spiritual Experience: Rabi'a al-'Adawiyya and Margery Kempe', *Persian Literary Studies Journal* (2014). Her book, *Subjectivity in 'Attar, Persian Sufism, and European Mysticism*, will be released in May 2017 by Purdue University Press.

TR, 2:00 pm - 3:15 pm. Instructor(s): Stanislav Shvabrin. Enrollment = 15.

Sholom Aleichem's Tevye the Dairyman's daughter Chava elopes with a Russian man only to repent and return home looking for her father's forgiveness. Chava's escape from her family, however, represents a choice made by many Jews in the Russian Empire. JWST/RUSS 480 will focus on the real-life stories of those of Tevye's children who never went home while forming a prominent cultural force whose contribution left an indelible mark on the Soviet Union. JWST/RUSS 480 delves into the scintillating literary, visual, musical, and cinematic culture created by Jewish universalists seeking to build their new secular identity under the aegis of the Soviet Communist experiment in the aftermath of the 1917 Bolshevik coup d'états. Surveys the works of Isaac Babel, Eduard Bagritsky, Marc Chagall, Sergey Eisenstein, Ilya Ehrenburg, Vasily Grossman, El Lissitzky, Leo Lunts, Osip and Nadezhda Mandelshtam and others. Taught in English; some readings in Russian for qualified and honors students; films with English subtitles.

Honors students enrolled in this course will augment their work on required primary texts with a close study of the secondary academic sources focusing on

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

This interdisciplinary course explores various, often conflicting ways of conceiving and shaping reality in the ancient world ; religious, scientific, and philosophical. The course is organized around a series of case studies: (1) the formation and makeup of the cosmos; (2) the origin of mankind and its sexual differentiation; (3) the invention of the `self; (4) the origin and nature of dreams; (5) foundations of law, justice, and morality. Short writing assignments, in-class discussions, oral presentations, and a term-paper will be used to introduce students into a complex intellectual network of natural scientists, philosophers, and oral story-tellers throughout the ancient Mediterranean world. Readings include Near Eastern mythical narratives and Homeric poems and hymns; selections from the earliest Greek philosophers through Plato's dialogues to Hellenistic and Roman philosophical schools; works from the

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

An introduction to the interpretation of the Hebrew Bible/Old Testament. We will look at the biblical text as modern interpreters and through the eyes of the Bible's earliest Jewish and Christian interpreters with special attention to changing assumptions about how to read the Bible and the nature of Scripture itself.

## ABOUT THE INSTRUCTOR:

David Lambert is interested in the Hebrew Bible as a textual object whose interpretation stands to tell us as much about its readers and their communities

RELI 089H.001   Researching Religion in Women's Lives							
TR, 2:00 pm - 3:15 pm. Instructor(s): Lauren Leve / Lisa Pearce. Enrollment = 12.							
How do religious beliefs and practices shape gender identities, values, and expectations in different religious cultures? How are these understandings reflected, contested, and/or creatively transformed by women within religious traditions, and at different times? How do we know what we think we know? The course examines the relations between women and religion across different traditions and in diverse global contexts, asking how religious modes of authority and ethical being-in-the-world shape women's aspirations for self-actualization and position them in relation to both opportunities and constraints. The course also asks, how can we know and measure these relations? Arguments about women and religion are based on evidence that reflect different sets of assumptions and are collected in different ways. Throughout the semester, we'll explore key methods for data collection and analysis in the Humanities and Social Sciences through a series of hands-on research assignments, culminating in a final research project. Practical experience generating and interpreting diverse types of data will reveal the ways that scientific and humanistic modes of inquiry can work together to pose and answer key questions about women

RELI 217H.001 | Gnosticism

TR, 3:30 pm - 4:45 pm. Instructor(s): Zlatko Pleše. Enrollment = 24.

This multidisciplinary course offers a comprehensive survey of ancient Christian `Gnosticism, one of the earliest and most long-lived branches of early Christianity, notorious for its promise of personal salvation through a firsthand knowledge (gnosis) of the divine. Principal readings are drawn from the famous `Nag Hammadi Library, a manuscript hoard buried at the time of official suppression of `heretical sects around 350 CE and discovered in 1945 by two Egyptian locals. In this course, students are expected to develop expertise, in textual analysis and broad interpretation, of ancient Gnostic myth and to acquaint themselves with various denominations within Gnostic Christianity, their doctrines, and their ritual practices. We will situate the ancient Gnostics in a complex network of early Christian groups and their conflicting ideas about orthodoxy, authority, and canon, as well as identify religious, philosophical, and literary traditions that helped to inform the basic tenets of ancient Gnosis. The course concludes by focusing on modern uses and misuses of the term `gnosticism, a broad category including the poetry of William Blake, the fiction of Kafka and Melville, psychoanalysis, the New Age movement,

RELI 248H.001   Introduction to American Islam TR, 12:30 pm - 1:45 pm. Instructor(s): Juliane Hammer. Enrollment = 24. This course provides an introduction to the presence of Muslims in the United States through both historical and thematic inquiry. We start with a historical survey spanning African Muslim slaves brought to the Americas in the antebellum period to the ongoing marginalization of Muslims after the 2016 elections. We then explore American Muslim communal and demographic diversity, political and civic organizations, political participation, religious practices as well as family, education, knowledge production and cultural diversity. Special attention will be paid to questions of gender, race, and citizenship, as well as to issues of religious authority and authenticity. The course engages diverse materials within the contexts of both American religious history and Islam as a global religious tradition.

RELI 426H.001   The Sacrifice of Abraham							
T, 3:35 pm - 6:25 pm. Instructor(s): Andrea Dara Cooper. Enrollment = 24.							
This course examines the attempted sacrifice by Abraham of his beloved son through a comparative approach.							
We will consider religious, philosophical, and ethical ramifications of the event from a variety of standpoints, including in the Hebrew Bible, the New Testament, and the Qurʿanic tradition, while discussing cultural echoes in visual art, music, and other media.							
Dr. Andrea Dara Cooper is an Assistant Professor in the Department of Religious Studies and the Leonard and Tobee Kaplan Fellow in Modern Jewish Thought and Culture at UNC. Dr. Cooper works at the intersection of Jewish thought, contemporary philosophy, cultural theory, and gender studies. At UNC she teaches classes on Introduction to Jewish Studies, Human Animals in Ethics and Religion, Modern Jewish Thought, and Post-Holocaust Ethics and Theology.

TITLE: Environmental Issues in Literature and Film: Italy in Global Conversation

GEN EDS: LA, NA

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

From plastic pollution to climate change, from mass extinction to deforestation, environmental issues occupy our conversations, concerns, anticipations. But why should we care about the environment? And what can the humanities do about it, which scientists or politicians would not do better or more effectively?

ROML 089H.001 | Sex, Sexuality and the Body in Early Modern European Literature

TR, 12:30 pm - 1:45 pm. Instructor(s): Lucia Binotti. Enrollment = 24.

The aim of this course is to explore the cultural constructions of gender and sexuality in the literature of Medieval and Renaissance Southern Europe. We will approach questions such as the status of women and the context of misogyny, the societal role of same-sex relations, the presentation and visualization of sexuality, desire and the body. We will observe the period through the lens of 5 overarching themes that recur at different moments and in different texts throughout the course: ¿Sex, beauty and artistic creation,¿ ¿Sex, marriage and family,¿ ¿Sex and religion¿, ¿Sex and science,¿ ¿Sex, deviancy, and crime.¿ Using such themes as the framework for our interpretations we will read, analyze, and discuss in loose chronological order an array of literary works mostly of the Iberian and Italian tradition, from which we will tease out a interdisciplinary understanding of the cultural and aesthetic forces that shaped the representation of sex and sexual love before the advent of the scientific theories that in turn define modern gender and sexuality for us today. This historical approach will offer insights into the shaping of our own cultural and personal attitudes. By focusing our attention on the challenged and

Description: This course provides an accelerated introduction to Romanian by teaching basic skills of speaking, reading, and writing it applied to a variety of real-life contexts. It covers levels one and two of the basic Romanian language sequence in one semester and is designed for motivated undergraduate language learners, especially those familiar with other Romance languages. It is the equivalent of SPAN 414 and counts toward the requirements of the Hispanic Linguistics major.

NOTE:Honors Carolina students register online when their registration appointment begins. Non-honors students should register for Section 002. If you are unable to enroll online, submit a wait list request at [honorscarolina.unc.edu/waitlist](https://honorscarolina.unc.edu/waitlist) between November 18 and January 2.

SSPAN 255H.001 | Conversation I  
MWF, 1:25 pm - 2:15 pm. Instructor(s): . Enrollment = 11.  
Spanish 255 Honors is a fifth-semester Spanish Conversation that will take students of Intermediate Spanish to a higher level of communicative competence in the language through the use of authentic input and the study of linguistic features necessary to understand and make oneself understood in a wide variety of real-life situations. The class works with a Course Correspondent abroad, one of our students in the UNC Seville program, who will be bringing highlights of that experience into our class in Chapel Hill. Spanish 255 Honors is designed to prepare non-native students for advanced study in Spanish, and is particularly recommend for those planning to study abroad.

REGISTRATION LIMITED TO MEMBERS OF HONORS CAROLINA; OUTSTANDING PERFORMANCE IN SPAN 204 OR EQUIVALENT IS REQUIRED.

Rolling into the Spanish Cuban American War: Labor, Race, and Gender in Three Transatlantic Tobacco Towns, 1886-1898

This course looks at the intersections of labor movements, race, and gender in locations on all three sides of the Spanish-Cuban-American war: Durham, NC, A Coruña, Spain, and Ybor City Florida. We will build connections and comparisons between the three sides, not to affix blame, but to complicate the narrative of the war and to deepen our understanding of this pivotal moment in cultural history. The course will also enter into some of the history and function of the nineteenth century tobacco industry, both as a mirror for the times and as a hotbed of political activism. These three tobacco towns work well together because they offer different formulations of the same process. Whereas Ybor's factories were integrated

SPAN 371.001 Studies in Spanish Literature. 3 Credits.

TRAVELING WITH MEDIEVAL KNIGHTS AND POWERFUL WOMEN IN EARLY MODERN SPAIN offers students the opportunity to analyze literature with a focus on history, society, and literary genres using primary works from the Middle Ages to 1700. In this course, students will learn to analyze poetry, short stories, novels, and plays. The course's main focus is a critical study and analysis of primary texts within a historical, artistic, political, socioeconomical, and legal context within specific topics. This thematic division will highlight how these primary texts show authority, genre, discourse, crimes and law, social order, religion, courtly love, and sexuality. In Spring 2020, SPAN371's three main topics are the concept of knight (hero/ heroine), powerful women

in the lower social stratum, and how traveling influences the nature of main characters.

MNGT 120H.001   Introduction to Interpersonal and Organizational Communication							
TR, 9:30 AM - 10:45. Instructor(s): Katie Striley. Enrollment = 4.							
Interpersonal communication is about our connections with other human beings. Communication shapes our understandings of ourselves, others, organizations and social systems. Our communication creates and recreates the social worlds in which we reside. We often take interpersonal communication for granted assuming that we already know much of it because we engage it on a daily basis. Yet, through engaged study, we will come to realize that interpersonal communication is complicated, consequential, and crucial. This course provides a space to openly analyze and discuss the role interpersonal and organizational communication plays in our understanding of self, other, and everyday life as constituted through the relationships that we create, sustain and sometimes end.

MNGT 325H.001   Introduction to Organizational Communication							
TR, 9:30 am - 10: 45 am. Instructor(s): Dennis Mumby. Enrollment = 4.							
This course will involve a critical examination of the field of organizational communication. We will begin by studying the various theories of organizational behavior that have been developed in the past 100 years, looking at both the elements of each theory and the ways that they have shaped organizational life. The course will examine organizations as complex social structures that exist in equally complex social and political environments. We will explore the nature of work and how it has evolved in recent decades, with particular emphasis on the world of work that students are likely to encounter after graduation.							
We will also focus on the communication-organization relationship, examining organizations as communication phenomena. Through this communication approach we will study various contemporary organizational phenomena, such as the new workplace, branding and consumption, leadership, gender and difference, and t

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

President Bill Clinton ended welfare as we know it in 1996 when he signed the Personal Responsibility and Work Opportunity Reconciliation Act into law. This significant and historical welfare reform fundamentally changed the federal safety net in the United States and abolished guaranteed aid for those in poverty. In this first-year seminar, we will use a sociological lens to investigate the causes and consequences of welfare reform, as well as the subsequent expansion of other antipoverty programs designed to help the working poor. We will consider a range of viewpoints that inform current policy debates; topics will include the conceptualization and measurement of poverty, causes of poverty, public and political attitudes toward welfare and the role of the government, and the implementation and efficacy of antipoverty policies.

SOCI 089H.001 | Researching Religion in Women's Lives

TR, 2:00 pm - 3:15 pm. Instructor(s): Lauren Leve / Lisa Pearce. Enrollment = 12.

How do religious beliefs and practices shape gender identities, values, and expectations in different religious cultures? How are these understandings reflected, contested, and/or creatively transformed by women within religious traditions, and at different times? How do we know what we think we know? This course examines the relations between women and religion across different traditions and in diverse global contexts, asking how religious modes of authority and ethical being-in-the-world shape women's aspirations for self-actualization and position them in relation to both opportunities and constraints. The course also asks, how can we know and measure these relations? Arguments about women and religion are based on evidence that reflect different sets of assumptions and are collected in different ways. Throughout the semester, we'll explore key methods for data collection and analysis in the Humanities and Social Sciences through a series of hands-on research assignments, culminating in a final research project. Practical experience generating and interpreting diverse types of data will reveal the ways that scientific and humanistic modes of inquiry can work together to pose and answer key questions about women,

Prerequisites: STOR 435 and STOR 455. This course covers topics in linear models going beyond the material in STOR 455. The primary foci will be (a) Generalized Linear Models; (b) Random Effects; (c) Nonparametric Methods (kernels, splines and related techniques). The course will be heavily computational, using the R statistical package (or RStudio), emphasizing the analysis of large datasets. The material is distinct from that in STOR 556, which covers time series analysis; students who took STOR 556 in Fall 2019 are welcome to take STOR 590 as well, but STOR 556 is not a prerequisite for STOR 590.

High Dimensional Probability with Applications in Statistics and Machine Learning. The aim of the course is to cover some fundamental techniques in high dimensional probability. The choice of each technique is motivated by a specific application in statistics and machine learning. Examples include:

- Poisson approximation and Cai et al's work on extrema of correlations.
- Concentration inequalities with applications to compressed sensing and matrix estimation.
- Belief propagation (approximate message passing) and LASSO and logistic regression in high dimensions.
- Basics of random matrix theory.

Convex Analysis and Optimization Theory. This course gives a in-depth introduction to convex analysis and continuous optimization theory. Topics include Caratheorary theorem, relative interiors, recession cones, lineality spaces and facial structure of convex sets, separation theorems, subgradients, conjugate functions and convex hulls of convex functions, solution existence of convex optimization, optimality conditions and duality for convex optimization, minmax theory, and applications in machine learning problems.

Design and Control of Queueing Systems with Applications to Manufacturing and Health Care. The main objective of this advanced course is to familiarize students with techniques that are commonly used in the design and control of queueing systems and also to demonstrate how these methods are applied to some interesting real-world problems.

The course will start with an introduction to fundamental concepts and results from queueing theory. We will then discuss techniques that are commonly used in queueing design and control such as stochastic comparisons, sample-path analysis, stochastic dynamic programming (+reinforcement learning), approximations and heuristics. Once we lay the proper foundation, we will discuss some classical as well as more recent queueing design and control problems. We will cover papers from a variety of application areas but the main focus will be on health care and service operations.

Students attending this course are expected to have a knowledge of basic probability and stochastic processes in the level of STOR 641.

THIS COURSE MEETS AT SAMSI in RTP. Games, Decisions, Risk and Reliability. The course will cover topics in decision theory related to games and reliability, and often draw upon tools in machine learning. The topics include classical risk analysis, theoretical risk bounds obtained from Vapnik-Chervonenkis learning theory, a comparison of game theoretic and adversarial risk analysis perspectives in the context of strategic decisions among opponents, risk analysis in the context of cybersecurity and cyberinsurance, and models for the reliability of complex systems.

The aspects emphasized for this course are:

- ¿ Application
- ¿ Computation
- ¿ Methodology
- ¿ Theory

WGST 101H.001 | Introduction to Women's and Gender Studies

MW, 3:35 pm - 4:50 pm. Instructor(s): Karen Booth. Enrollment = 24.

In this survey course, we will explore some of the questions and topics at the heart of the study of and the struggle to end gender-based oppression (sexism or patriarchy). We will consider how it is that social or cultural constructions such as ¿masculinity,¿ ¿femininity,¿ ¿heterosexuality,¿ and ¿homosexuality¿ come to seem natural, biological, or innate and how and why feminists have challenged and continue to challenge these constructs.

Some of the main themes or ideas we will emphasize through lectures, readings, discussions, films, assignments, and the inevitable final exam are:

1. gender is a collective, institutionalized social construction or ideology, not a biological fact or an individual free choice;

Two weekends, Friday through Sunday. January 10 - 12, 2020 (3 days from 9:30 am to 5:00 pm); January 31- February 1, 2020 (2 days from 9:30 am to 5:00 pm) and February 2, 2020 (1 day from 9:30 am to 2:00 pm).

NOTE: Students must attend every class in order to obtain credit. If a student cannot attend all of the class sessions (even for unforeseen circumstances beyond the student's control) the student will not be eligible to receive credit and may be required to withdraw from the course. NOTE: If during one of the weekends, there is an emergency that closes the school (e.g., snow event, etc.) or the instructor is otherwise unable to teach the course, then the instructor has reserved February 14 - 16, 2020 as a backup weekend (and you would need to be available then as well).

		17-NOV-2019	RC CLAS UG FFYS	STDTS	0		6	

## PREREQUISITES:

First-year students only.

## DESCRIPTION:

A smart city is one where the needs of a populace meet the needs of environmental sustainability. The balance between the social and environmental issues is governed by Information and Communication Technologies (ICT) that power a smart city infrastructure. In this course, we learn about the influence of urban networks, smart city urban planning, energy as a catalyst of sustainable development, smart city infrastructure, sustainable transportation, flow of information and communications, smart grids, digital infrastructure and the role of data and information technology. We will discuss criteria for measuring the smartness of a city, including quality of life, citizen governance, and discuss issues that go towards the making of a future smart city. Several case studies will be presented with guest lecturers invited to present on critical thinking and practices in smart city development.

INLS	151	001	7298	RETRIEV/ANALYZ INFO	Lecture (Face to Face Instruction)	3		A
<b>Bldg:</b> Manning		<b>Room:</b> 0307		<b>Days:</b> MW	<b>Time:</b> 15:35 - 16:50	INST	100	<b>Instructor:</b> Roscoe,Emily Elizabeth
<b>Class Enrl Cap:</b> 21		<b>Class Enrl Tot:</b> 22		<b>Class Wait Cap:</b> 10		<b>Class Wait Tot:</b> 10		<b>Class Min Enrl:</b> 0
<b>Reserve Capacity:</b>		31-OCT-2019	RC CLAS UGRD SO SOPH	STANDING	<b>Reserve Enrl Cap:</b> 7	<b>Reserve Enrl Tot:</b>	7	GR1
		31-OCT-2019	RC CLAS UGRD FIRST YR	STDTS	7		7	
		31-OCT-2019	RC CLAS UGRD JR JUNIOR	STNDING	7		7	

Non-SILS students are allowed to register for INLS 151, 201 and 161. However, seats are prioritized according to year (freshman, sophomore, and junior). If you receive a `reserve capacity not met; error message for an open course (green dot), it means that all seats reserved for your year are currently filled. You must add yourself to the waitlist in Connect Carolina, as we will not be keeping an internal waitlist. We will enroll from the waitlist as seats become available. Seniors are not allowed to enroll in these 3 courses.

\*Undergraduates can only be on one waitlist at a time and 17 hours is the max during early registration.

\*\*We will begin to fill available seats from the waitlist in mid-December. If you are not waitlisted, you will not be allowed to enroll.

		03-NOV-2019	RC CLAS UGRD SO SOPH STANDING	20	19		

Non-SILS students are allowed to register for INLS 151, 201 and 161. However, seats are prioritized according to year (freshman, sophomore, and junior). If you receive a `reserve capacity not met; error message for an open course (green dot), it means that all seats reserved for your year are currently filled. You must add yourself to the waitlist in Connect Carolina, as we will not be keeping an internal waitlist. We will enroll from the waitlist as seats become available. Seniors are not allowed to enroll in these 3 courses.

\*Undergraduates can only be on one waitlist at a time and 17 hours is the max during early registration.

\*\*We will begin to fill available seats from the waitlist in mid-December. If you are not waitlisted, you will not be allowed to enroll.

Non- SILS students are not allowed to register for all other INLS courses as they are restricted to INLS major, minors and graduate students during early registration. NON-SILS students will need to add yourself to the waitlist in Connect Carolina for the course you are interested in, as we will not be keeping an internal waitlist. We will enroll from the waitlist as seats become available.

\*Undergraduates can only be on one waitlist at a time and 17 hours is the max during early registration.

\*\*We will begin to fill available seats from the waitlist in mid-December. If you are not waitlisted, you will not be allowed to enroll.

PREREQUISITES: First-year students only.								
DESCRIPTION: What does it mean to be an educated person? What function do schools serve? This seminar builds on the experiences of schooling that students bring to the university. In an innovative update to the pedagogy of this popular First Year Seminar, it will now feature design thinking and use of {makerspaces} as a way for students to {actualize} their ideas and learning about how schooling can be updated and revised to better meet the aims of {real} education in the Twenty-first Century and beyond. The seminar includes readings, speakers and experiences as stimuli for them to engineer new paradigms, approaches, structures and tools for education of the future. Students are challenged to re-consider and de-construct what they know about education and schools as a result of those experiences and then re-conceptualize, redesign and create their new vision for schooling as educative in new ways. The seminar considers

ENVR/PHNU 423-01S (for residential students), Industrial Medicine and Toxicology (3 credits) is considered a graduate level course and is required for most students in the Occupational Safety and Health Education and Research Center (occupational medicine, occupational health nursing, occupational exposure science, safety and ergonomics, and occupational epidemiology). Other students interested in this course should have some background knowledge in one of these disciplines. This knowledge is essential during discussion of the case studies. Permission of the instructor is required for non-OSHERC students. To verify your preparation for this class or other questions please contact L.M Ball at lmball@unc.edu

					INST	100	Instructor: MITRAN,Sorin
Class Enrl Cap: 3		Class Enrl Tot: 0		Class Wait Cap: 1		Class Wait Tot: 0	
						Class Min Enrl: 0	
GR3							
Combined Section ID: 0088(math762/envr/762/masc782.001) - MATH 762(#4745), MASC 782(#10718)							
Prerequisite, MATH 761. Elliptic equation methods (finite differences, elements, integral equations); hyperbolic conservation law methods (Lax-Fiedrich, characteristics, entropy condition, shock tracking/capturing); spectral, pseudo-spectral methods; particle methods, fast summation, fast multipole/vortex methods.							
ENVR	764	001	8944	MATHEMATICAL MODELING II	Lecture (Face to Face Instruction)	3	A
Bldg: Phillips				Room: 0228	Days: MWF	Time: 12:20 - 13:10	
					INST	100	Instructor: CAMASSA,ROBERTO A
Class Enrl Cap: 3		Class Enrl Tot: 0		Class Wait Cap: 1		Class Wait Tot: 0	
						Class Min Enrl: 0	
GR3							
Combined Section ID: 0089(math769/envr764/masc784) - MATH 769(#2895), MASC 784(#4150)							
Prerequisites, MATH 661, 662, 668, and 669. Current models in science and technology: topics ranging from material science applications (e.g., flow of polymers and LCPS); geophysical applications (e.g., ocean circulation, quasi-geostrophic models, atmospheric vortices).							

ENVR	765	001	9040	SPACE TIME EXPOSURE MAPPING	Lecture	3		A
					(Face to Face Instruction)			
<b>Bldg:</b>	Michael Hooker Rese	<b>Room:</b>	0003	<b>Days:</b>	TuTh	<b>Time:</b>	12:30 - 13:45	
						INST	100	<b>Instructor:</b> Serre,Marc L.
<b>Class Enrl Cap:</b>	25	<b>Class Enrl Tot:</b>	14	<b>Class Wait Cap:</b>	5	<b>Class Wait Tot:</b>	0	<b>Class Min Enrl:</b> 0

GR3

Prerequisite:

Multivariate Calculus (MATH 233 or equivalent)  
 A grasp of linear algebra (for example through MATH 547- Linear Algebra, or equivalent)  
 A grasp of statistics (for example through a prior course in statistics)  
 Experience with, or willingness to learn, the MATLAB computer language

ENVR	770	001	13742	BIOLOG MONITORING	Lecture	3		A
					(Face to Face Instruction)			
<b>Bldg:</b>	McGavran-Greenberg	<b>Room:</b>	2304	<b>Days:</b>	MW	<b>Time:</b>	10:10 - 11:25	
						INST	100	<b>Instructor:</b> NYLANDER-FRENCH,LEENA A
<b>Class Enrl Cap:</b>	20	<b>Class Enrl Tot:</b>	7	<b>Class Wait Cap:</b>	0	<b>Class Wait Tot:</b>	0	<b>Class Min Enrl:</b> 0

GR3

Prerequisite, ENVR 430. This course provides both practical and theoretical information on biological monitoring of chemical exposures and how to evaluate and interpret exposure data. Three lecture hours per week and a term paper (three credit hours).

ENVR	775	001	10687	GLOBAL CLIMATE CHANGE INTERDIS	Lecture	1		A
					(Face to Face Instruction)			
<b>Bldg:</b>	Rosenau (Public Hea	<b>Room:</b>	0133	<b>Days:</b>	Tu	<b>Time:</b>	15:30 - 16:45	
						INST	100	<b>Instructor:</b> WEST,JAMES JASON
<b>Class Enrl Cap:</b>	80	<b>Class Enrl Tot:</b>	24	<b>Class Wait Cap:</b>	0	<b>Class Wait Tot:</b>	0	<b>Class Min Enrl:</b> 0

GR3

Open to all undergraduate, graduate, and professional students. 1 Credit hour.Undergraduates register for ENVR 475 and take the class Pass/Fail. Graduate & Professional students register for ENVR 775 and take the class for a grade.

ENVR	777	001	9547	AIR SEMINAR	Lecture	1		A
					(Face to Face Instruction)			
<b>Bldg:</b>	Rosenau (Public Hea	<b>Room:</b>	0228	<b>Days:</b>	M	<b>Time:</b>	12:20 - 13:10	
						INST	100	<b>Instructor:</b> WEST,JAMES JASON
						INST	100	<b>Instructor:</b> VIZUETE,WILLIAM
						INST	100	<b>Instructor:</b> Turpin,Barbara Jo
<b>Class Enrl Cap:</b>	30	<b>Class Enrl Tot:</b>	1	<b>Class Wait Cap:</b>	0	<b>Class Wait Tot:</b>	0	<b>Class Min Enrl:</b> 0

1 cr. Cultural Humility is a component of the required training sequence for first year MPH students in the Global Health concentration. This course is designed to provide students with the skills to work in culturally complex settings and to apply cultural humility when engaging in global health research and practice. The course format will consist of five 3 hour sessions, scheduled throughout the semester. Sessions may include lectures, guest speakers, in-class exercises, case studies, and critical discussion of examples from the public health literature.

This intermediate-level course is the equivalent of the third semester of college Spanish. Students will hone their listening and speaking skills in class primarily through role-playing activities and class discussion. Activities center on an original film set in a health clinic in rural North Carolina.

SPHG 428H.001 | Public Health Entrepreneurship

M, 4:40 pm - 7:40 pm. Instructor(s): Alice Ammerman / Laura Fieselman. Enrollment = 30.

The innovative and sustainable nature of entrepreneurial pursuit can benefit public health initiatives, especially when entrepreneurship identifies economically self-sustaining solutions to public health challenges. This three-credit course will introduce students to basic concepts and case studies of commercial and social entrepreneurship as applied to the pursuit of public health through both for-profit and non-profit entities. This course features many guest speakers with successful experience in public health entrepreneurship in diverse arenas.

At the core of this course is a real-world project where students will work in groups to design their own start-ups, refining both their idea throughout the semester and pitching it to experienced entrepreneurs for feedback.

		04-JAN-2020 RC FC OC Students		0		0	
						GR1	

Our online courses fill up very quickly. They may show as open/available but not allow certain students to enroll because the remaining online slots are reserved for non-degree seeking students or non-UNC-Chapel Hill students. If the reserved online slots are not filled by January 4, then they will be released to the students who are on the waitlist. If possible, we recommend getting on the waitlist. If the waitlist is full, then we recommend speaking with your academic advisor about other options.

ONLINE COURSE WITH THE FRIDAY CENTER.

Full time UNC degree students are limited to 1 online course per semester.

Part-time students: May combine online and night courses but should contact the Friday Center for assistance.

		03-JAN-2020	RC FC OC Students	0		3		

Our online courses fill up very quickly. They may show as open/available but not allow certain students to enroll because the remaining online slots are reserved for non-degree seeking students or non-UNC-Chapel Hill students. If the reserved online slots are not filled by January 4, then they will be released to the students who are on the waitlist. If possible, we recommend getting on the waitlist. If the waitlist is full, then we recommend speaking with your academic advisor about other course options.

ONLINE COURSE WITH THE FRIDAY CENTER.

Full time UNC degree students are limited to 1 online course per semester.

Part-time students: May combine online and night courses but should contact the Friday Center for assistance.

Per Arts & Sciences policy, first-semester, first-year students may not enroll in for-credit online courses unless unusual circumstances prevail, nor may first-year students take an online course in the summer prior to matriculation.

Our online courses fill up very quickly. They may show as open/available but not allow certain students to enroll because the remaining online slots are reserved for non-degree seeking students or non-UNC-Chapel Hill students. If the reserved online slots are not filled by January 4, then they will be released to the students who are on the waitlist. If possible, we recommend getting on the waitlist. If the waitlist is full, then we recommend speaking with your academic advisor about other course options

ONLINE COURSE WITH THE FRIDAY CENTER.

Full time UNC degree students are limited to 1 online course per semester.

Part-time students: May combine online and night courses but should contact the Friday Center for assistance.
